 Portfolio

PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience specializing in the MERN Stack (MongoDB, Express.js, React.js, Node.js), along with Next.js and TypeScript. Proven ability to design and develop scalable REST APIs, build high-performance and responsive user interfaces, and implement secure authentication and authorization systems. Strong problem-solving skills with a collaborative mindset, experienced in delivering robust web applications from concept to production.

EXPERIENCES

IT Support Engineer
Next View Technologies (India) Pvt. Ltd.

March 2025 – Present

I led the development and optimization of MERN and Electron, applications, ensuring accurate implementation, improving code quality, and introducing processes that reduced errors and accelerated project delivery

- Developed a scalable validation and control system using MERN/Electron, reducing application errors by 35% & improving reliability.
- Collaborated in technical audits and code reviews, consistently achieving zero critical findings across all evaluations.

Talent Acquisition Executive
Fanidhar Mega Food Park

December 2023 – February 2025

Improved end-to-end recruitment processes and implemented structured workflows to enhance hiring efficiency and reduce turnaround time.

- Handled end-to-end hiring: sourcing, screening, onboarding.
- Conducted employee training and engagement programs.

Full Stack Developer
Squad Institute Of Hotel Management

July 2022 – August 2023

Developed and optimized backend logic for data reconciliation and validation workflows, improving accuracy and reducing processing time.

- Optimized system workflows to reduce operational bottlenecks and improve performance.
- Built automated reconciliation and reporting features, cutting processing time by 40%.
- Developed secure backend services and dashboards for efficient user and business operations.
